## Programming Assignment

[This lecture notebook](#) gives a tutorial on how to use numpy for data science. Numpy makes coding considerably easier in python. This is not needed for the homework, but we recommend reading through it.

[Download this homework](#) and complete HW\_8.ipynb.

### Sample\_Mean\_MSE

1 point possible (graded)

What is the closest output for the following code: `Sample_Mean_MSE(2,14)`

☐ 0.566

☒ 1.200 ✓

☐ 1.989

☐ 2.687

Submit

You have used 0 of 2 attempts

**i** Answers are displayed within the problem

## MinMax\_Mean\_MSE

1 point possible (graded)

What is the correct output for the following code: `MinMax_Mean_MSE(2,14)`

☐ 0.042

☒ 0.545 ✓

☐ 1.203

☐ 1.874

Submit
